No. 17.—Imports Oversea, 1915-16.

(*From 1st July*, 1915, *to 30th June*, 1916.)

Value of Imports.—The value of goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—Duties charged on Imports into New South Wales are collected under the Commonwealth of Australia Customs Act, 1901 (No. 6 of 1901); the Customs Tariff, 1906, South African Preference (No. 17 of 1906); the Customs Tariff, 1908–11 (No. 19 of 1911); and (proposed) Customs Tariff, 1914.

NOTE.—(O.R.), opposite "Duty paid on" denotes the quantity or value of articles on which Duty was paid at rates in force prior to date of "proposed Tariff, 4th December, 1914"; other amounts represent values or quantities on which Duty was paid since that date.

Articles which do not show any quantity on which Duty was paid, are to be taken as free of Duty, except where otherwise stated.*

No. 19.—Exports Oversea, 1915-16.

(*From 1st July, 1915, to 30th June, 1916.*)

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading. The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages without an indication of the number, capacity, or weight of the articles exported, only the values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 20.

PART X.—SOCIAL CONDITION.

No. 1.—State Parliament Election, 1913.—Electors and Voting.

[The Election of Members to serve in the Legislative Assembly of New South Wales took place on the 6th December, 1913. Second Ballots were held in twelve Electorates on the 13th and 20th December.]

The Parliamentary Elections (Second Ballot) Act, 1910, provides that for election a candidate must receive an absolute majority. Where this does not take place, a second ballot must be taken between the two candidates occupying the first and second positions. For results of Second Ballots, see end of Table.

Constitution Act.—The "Constitution Act, 1902," consolidates the Acts relating to the Constitution. Subject to the provisions of the Commonwealth of Australia Constitution Act, the Legislature has power to make laws for the peace, welfare, and good government of New South Wales, provided that all Bills for appropriating any part of the public revenue, or for imposing any new rate, tax or impost, originate in the Legislative Assembly.

Legislative Council.—A maximum number of members of the Legislative Council is not fixed by the Constitution Act. In December, 1915, the number of members was fifty-four. Members receive no allowance for expenses, but travel free over the Government railways and tramways in the State. Although the appointment is for life, a member forfeits his seat if absent from two successive Sessions without leave, if a subject of a foreign power, if convicted of a crime, or if he become a public contractor or bankrupt; and he may resign his seat by a letter to the Governor, at any time. The President of the Legislative Council receives a salary of £750 per annum, and the Chairman of Committees £470 per annum.

Legislative Assembly.—New South Wales is divided into ninety electorates, each of which is represented by one member in the Legislative Assembly. The Legislative Assembly continues for three years from the day of the return of the writs of election unless dissolved by the Governor. Each member (except when holding an office of profit under the Crown as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £500 per annum (Parliamentary Representatives' Allowance Act, 1912) by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The seat of a member becomes vacant if the member is absent without permission for a whole session of the Legislature, if he become a public contractor, or bankrupt, a subject of a foreign power, or is convicted of a crime. Any member may, by writing under his hand addressed to the Speaker, resign his seat at any time. The Speaker of the Legislative Assembly receives a salary of £1,000 per annum, and the Chairman of Committees £740 per annum.

Executive Council.—The Executive Council consists of the Governor and of the members of the Cabinet.

* Unrecorded. † For Parliaments prior to the 16th, the figures represent Voters on the Roll, irrespective of the number of distinct electors; for the 16th and succeeding Parliaments, the figures in this column represent Electors upon the Roll, each Elector having one vote only. ‡ Includes Second Ballot figures.

General Election, 1913.—For information regarding Electors and Votes recorded in each Electorate, see Table No. 1.

NOTE.—Every adult, being a natural-born or naturalised subject above the age of 21 years, who is of sound mind, not in receipt of public charity, and not in prison under any conviction, is entitled to vote, provided that he, if a natural-born subject, has resided, or has had his principal place of abode, within the Commonwealth, for a continuous period of six months, or within New South Wales for a period of three months, and has resided for one month in the district for which he claims to vote; or, if a naturalised subject, for a like period after naturalisation. Provision is made for change of residence.

The franchise was extended to women during the year 1902, and women first voted at the General Election for the 20th Parliament in the year 1904.

Royal Edward Victualling Yard is the official designation of the Royal Naval Victualling Yard at Darling Island, Sydney.

Boundaries of Australian Naval Station.—Prior to 1st July, 1913, these were :—From 9 E. long. by the parallel of 13° S. lat. to 120° E. long. ; thence N.E. to 8° S. lat. on the meridian of 130° E. long. ; thence north to 2° N. lat., and along that parallel to 136° E. ; thence north o 12° N., and along that parallel to 160° W. ; thence south to the Equator, and eas to 149° 30′ W. ; bounded on the south by the Antarctic Circle ; bounded on east by meridian of 149° 30′ W. long. ; and bounded on the west by meridian of 95° E. long.

Since the 1st July, 1913, when the Royal Naval Establishments were transferred to the Commonwealth, the revised boundaries have been as follow :—

On the North, from 95° E. long. by the parallel of 13° S. lat. to 120° E. long. ; thence north to 11° S. lat. ; thence to the boundary with Dutch New Guinea on the south coast in about long. 141° E. ; thence along the coast of British New Guinea (Papua) to the boundary with German New Guinea in 8° S. lat. ; thence east to 155° E. long.

On the East, by the meridian of 155° E. long. to 15° S. lat. ; thence to 28° S. lat. on the meridian of 170° E. long. ; thence south to 32° S. lat. ; thence west to the meridian of 160° E. long. ; thence south.

On the South, by the Antarctic Circle.

On the West, by the meridian of 95° E. long.

NOTE.—Up to 4th October, 1913, Sydney was the headquarters of the Imperial fleet, and ranked as a first-class naval station. Since that date the headquarters of the fleet have been in New Zealand.

NOTE.—The Royal Naval House was erected in Sydney exclusively for the accommodation of the men of the British Navy. It was built in 1889, at a total cost, inclusive of land, of £25,000, contributed by citizens and by the Government of New South Wales. A new wing was added in 1908 at a cost of £8,600. The House contains large reading, smoking, dining, and billiard rooms, besides a gymnasium, large concert hall, with other accessories. Sleeping accommodation is available for 400 men. The institution is self-supporting, but an annual grant from the Government of New South Wales is devoted to maintaining the House during the absence of the Squadron from Sydney. The House has been used by the men of the fleet very freely, also by the petty officers and men of the Royal Australian Navy. Since March, 1915, the House has been thrown open to the soldiers of the Expeditionary Forces by special invitation of the Trustees, and is being largely availed of.

It is the only establishment of its kind in Australasia, and is controlled by a Superintendent, a Committee elected by the Trustees from among their number, a few Naval Officers, an Honorary Secretary and Treasurer.

Partial Payment of Volunteer Firemen.—Considerable sums are annually spent by the Board in payment of retaining fees and allowances for attendance at fires and drills to the Volunteer Firemen, who thus really are partially paid. In addition, the supply and repair of fire appliances, for uniforms and equipment, the erection and repair of stations, horses, &c., absorb large amounts.

Volunteer Fire Brigades.—All Brigades situated within the Metropolitan fire district or in any district to which the Fire Brigades Act applies, are subject to the inspection and orders of the Chief Officer of New South Wales Fire Brigades. The hose and other appliances are the property of the Board of Fire Commissioners of New South Wales.

Sydney Harbour—Fire Appliances.—For the purpose of dealing with ship fires the Sydney Harbour Trust maintains an efficient Fire Brigade which is stationed at Goat Island, and the following fire-fighting appliances are always available for use, viz.—

S.S. "Pluvius"—Discharge capacity, 2,500 gallons per minute, working six 2½-inch hoses and one 4-inch hose.
S.S. "Hydra"—Discharge capacity, 3,500 gallons per minute, working eight 2½-inch hoses, and one 4-inch hose.
S.S. "Powerful"—Steam-lighter, fitted with a pump capable of throwing 1,800 gallons per minute, working four 2½-inch hoses.
They are also fitted with heavy suction-pipes for salvage purposes.

In addition to the above, Messrs. J. and A. Brown's tug, "Champion," is equipped with a large centrifugal pump, having a discharge of 2,300 gallons per minute, while several of the principal Stevedoring Companies have specially fitted plant on some of their steam-lighters, with hoses complete, and capable of throwing up to 250 gallons per minute, which are brought into operation, in case of fire, when called upon.

Alarm Telephones.—Telephones connected with the fire stations are placed in fire-alarm boxes in important localities of the city and suburbs. The various police stations also are in communication, and public offices, hotels, wharves, business firms, and private houses, connected with the General Post Office Exchange, may transmit calls for fires at any time.

* Includes six suburban districts, also Harbour fires, which are outside the New South Wales Fire Brigade area.

† Includes one suburban district, also Harbour fires, which are outside the New South Wales Fire Brigade area.

Under the Fire Brigades Act of 1909, which came into operation on 1st January, 1910, the responsibilities of all the fire brigades in the State were transferred to the Board of Fire Commissioners of New South Wales. The revenue of the country fire brigades is derived from contributions from the Government, the municipal or shire councils interested in the respective fire districts, and the fire insurance companies insuring property within such districts, in the proportion of one-third each, and this sum represents practically the expenditure for the year.

National Parks.—The following parks are outside the metropolitan area, but may be specially mentioned on account of their national character:—The National Park, 33,747 acres, at Port Hacking; Kurnell, Captain Cook's landing-place on southern headland of Botany Bay, 248 acres; Kuring-gai Chase, 35,322 acres, on the Hawkesbury River; Parramatta Park, 252 acres, at Parramatta.

Trustees of Parks.—Under the Public Parks Act the Governor may appoint Trustees of any lands proclaimed for the purposes of public recreation, convenience, health, or enjoyment. The Trustees are empowered to frame by-laws for the protection of shrubs, trees, &c., upon the land vested in them, and regulate the use and enjoyment of such land by the public.

* The number of writs issued includes those for claims subsequently settled by the parties.

† The amounts for judgments signed include taxed costs in all cases where the judgments have been completed at the end of the year, and relate to both undefended and tried cases.

‡ Complete information not available.

§ Prior to 1st July, 1911, fees in the Supreme Court were paid by duty stamps. This amount represents fees for the half year from 1st July, 1911, to 31st December, 1911.

Judges of Supreme Court.—There are eight Judges attached to the Supreme Court—the Chief Justice, and the seven Puisne Judges. The Chief Justice and three Puisne Judges devote attention chiefly to Common Law and criminal cases, the other Judges to Equity, to Bankruptcy and Probate, and to Divorce and Matrimonial Causes.

Terms.—There are four Terms during each year, the periods of which are fixed by the Judges, who also decide the duration of Vacations and the dates for holding Circuits.

* Particulars include estates administered by the Public Trustee.

Probate and Administration.—By the Wills Probate and Administration Act of 1898, the jurisdiction previously vested in the Primary Judge in Equity was transferred to the Supreme Court in its Probate Jurisdiction, and to such Judge as may be appointed Probate Judge. The duties of the Prothonotary and Ecclesiastical Clerk are now performed by the Registrar of Probates.

Gross and Net Value of Estates.—The figures from the Probate Court and Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates and letters of administration on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

Estates—Formal matters.—Under the Administration Amending Act of 1906 the granting of all probates and letters of administration, where no contention has arisen, is now delegated to the Registrar of Probates.

Small Estates—Value £300 and under.—In pursuance of the provisions of the "Wills, Probate and Administration Act of 1898," probate and letters of administration may be granted by the Registrar without the intervention of a solicitor in estates sworn not to exceed £300.

NOTE.—From 1st January, 1914, under Act No. 19, 1913, the estates formerly administered by the Curator of Intestate Estates were transferred to the Public Trustee. In addition, the Public Trustee is empowered to act as Executor or Trustee either by will or by appointment, also as Agent or Attorney.

Particulars respecting intestate estates in previous years will be found on reference to the Statistical Register for those years.

* In 1914 one Decree for Jactitation was granted, not included in the Table.

NOTE.—Included in the petitions *in formâ pauperis* during 1915, there were—nullity of marriage, 1; judicial separations, 3; and restitution of conjugal rights, 13.

Prior to the passing of the Matrimonial Causes Act of 1873, the Supreme Court of New South Wales had no jurisdiction in divorce. Under that Act the chief grounds for divorce were adultery since marriage on the part of the wife, and adultery and cruelty on the part of the husband. The present Act was passed in 1892, and during 1893 there was an amending Act. Under these Acts petitions for divorce may be granted for the following causes, in addition to those already mentioned :—

Husband v. Wife.—Desertion, or habitual drunkenness and neglect of domestic duties for three years; refusal to obey an order for restitution of conjugal rights; imprisonment for three years and upwards; attempt to murder or inflict grievous bodily harm, or repeated assaults and cruel beatings during one year preceding the date of the filing of the petition.

Wife v. Husband.—Adultery and desertion for two years; desertion, or habitual drunkenness, with neglect to support and cruelty, for three years; refusal to obey an order for restitution of conjugal rights; imprisonment for three years and upwards; imprisonment under sentences aggregating three years, within a quinquennial period; attempt to murder, or to inflict grievous bodily harm, or repeated assaults and cruel beatings within one year of petition. In order to obtain relief on any of these grounds, the petitioner must have been domiciled in the State for three years and upwards at the time of instituting the suit.

Nullity of Marriage.—Petitions may be granted in cases of marriages which are void by the law of the land; where some statutory requirements have not been observed; or in which one of the parties is incapable to perform the duties of marriage, or has been joined in the marriage ceremony through coercion, or threats; also on the ground of mental incapacity.

Judicial Separation.—In addition to the principal causes for which a divorce may be obtained, judicial separation may be granted for desertion without cause for not less than two years.

Restitution of Conjugal Rights.—Before a suit may be brought, there must have been a request of a conciliatory character to the other party to return to cohabitation.

(*a*) *Sequestration Orders Discharged.*—The Court may discharge sequestration orders in cases where it is of opinion that a sequestration order ought not to have been made, or where it is shown that the debts of the bankrupt have been paid in full.

(*b*) *Release of Estate.*—A bankrupt may have his estate released from sequestration after the acceptance and approval of a composition or scheme of arrangement, or if all the creditors are paid in full, or have given him a legal acquittance of the debts due.

(*c*) *Certificates of Discharge.*—Three months from the date of sequestration a bankrupt may give notice by advertisement of his intention to apply for a Certificate of Discharge. The application may be heard within thirty and not less than fourteen days of the date of the first publication of the advertisement. The Court receives a report from the Official Assignee, and may grant, suspend, or refuse an absolute order of discharge. A bankrupt is not deemed to be discharged until he pays all fees due by him and a certificate has been issued.

(*d*) *Composition and Arrangement.*—The creditors may accept, and the Court approve, a proposal for a composition, or for a scheme of arrangement, provided that it has been confirmed by a majority representing three-fourths in value of all proved creditors.

Suspension or Refusal of Certificates.—The Court may grant or refuse an absolute order of discharge, or suspend the operation of the order for a specified time, or grant an order of discharge or suspend the operation of such order subject to any conditions with respect to future earnings or income. In certain cases the Court must refuse, suspend, or grant the order subject to conditions. As one of the conditions of granting an order of discharge, the Court may require the bankrupt to consent to judgment being entered against him.

The Assets and Liabilities are "according to Bankrupts' Statements of Affairs." The assets vary in many instances considerably from the statements showing amounts realised; the original figures as to liabilities, however, represent fairly the actual indebtedness.

Petitions withdrawn and refused.—Petitions withdrawn apply wholly to Creditors' petitions withdrawn in consequence of terms of settlement approved by the Court, and the petitions refused represent those cases in which the Court is not satisfied that acts of Bankruptcy alleged have been committed, nor with the proof of the petitioning creditor's debt.

Official Assignees.—There are two Official Assignees appointed by the Executive Council, with the approval of the Judge, and when, in the opinion of the Judge, an addition to their number is required, others may be appointed. In each estate the Official Assignee receives 2½ per cent. commission on the amount realised, and 2½ per cent. on the amount of dividends declared. The Court may also grant special remuneration. Under the 98th section of the Act, each Official Assignee is obliged to furnish the Registrar with quarterly statements showing the transactions in each estate.

* *Bankruptcy Estates Account.*—Each Official Assignee pays all moneys received by him to the Registrar in Bankruptcy, who places the amount to the credit of the "Bankruptcy Estates Account." In special circumstances the Official Assignee may be allowed to open an account with a bank. When the Official Assignee's account and plan of distribution in an estate have been confirmed, the Registrar draws a cheque on the Bankruptcy Estates Account in favour of the Official Assignee, to cover dividends and unpaid charges included in the account and plan. In cases of urgency the Registrar may pay out moneys to the Official Assignee, pending the confirmation of an account and plan.

NOTE.—Prior to 1st July, 1911, there was a Vice-Admiralty Court (appointed by the Admiralty) consisting of the Chief Justice as Judge Commissary, and with him was associated a Puisne Judge of the Supreme Court as Deputy Judge. On that date the Vice-Admiralty Court ceased to exist, and the Supreme Court became a Colonial Court of Admiralty, with power to hear and determine matters previously determined in the Vice-Admiralty Court.

* In these cases the Court could not deal with the Certificates, because no serious damage had been caused to a ship, or there was no loss of life in connection with the casualty. † The Court has no jurisdiction over Pilot's Certificates.

Courts of Marine Inquiry.—In respect of British ships, these Courts hear and determine inquiries as to wrecks and other shipping casualties, or as to charges of incompetency or misconduct on the part of masters, mates, or engineers. Appeals and references under the Navigation Act (No. 60, 1901) are also heard and determined. One or more District Court Judges constitute a Court of Marine Inquiry, and the Court is assisted by the assessors appointed under the said Act, but such assessors have power only to advise and not to adjudicate on any matter before the Court.

NOTE.—The Industrial Arbitration Act, 1901, provided for the registration and incorporation of Industrial Unions, for making and enforcing industrial agreements, and for the constitution of a Court of Arbitration for the hearing and determination of industrial disputes and matters referred to it. The Court was composed of a Judge of the Supreme Court, with one representative each of employers and employees. Under the Industrial Arbitration (Temporary Court) Act, 1905, a Judge of the District Court was made President of the Court.

The Industrial Disputes Act of 1908 preserved the results of the working of the Court of Arbitration. This Act was operative up to and including the 17th April, 1912, when it was superseded by the Industrial Arbitration Act of 1912. The conditions of trade may be settled voluntarily by an industrial agreement or compulsorily through the medium of the Industrial or Wages Boards, and the Industrial Court.

Appeals.—The right of appeal may be exercised only in causes in which the amount claimed exceeds £10, and the appeal must be made either on points of law or in respect of the admission or rejection of evidence.

Causes tried by Jury.—In all actions where the amount claimed exceeds £20, the Judge may order, or, the plaintiff or defendant may demand, that a Jury be summoned, by giving notice to the Registrar of the Court.

Number of District Courts.—At the end of the year 1915 there were 68 District Courts in the State, and 10 District Court Judges.

Examination of Judgment Debtors		604	534	598

Garnishee Cases.—Upon the *ex parte* application of any creditor who has obtained a judgment, the Court may order that all debts due by a third person (the garnishee) to the defendant, except in the cases of wages or salary at £2 per week or under, shall be attached to meet the judgment debt; and, by a subsequent order, may direct the garnishee to pay as much of the amount owing by him as will be sufficient to satisfy the judgment debt. In cases where wages or salary exceed £2 per week, an order may be made only for the amount of wages or salary in excess of that amount.

Interpleader Cases.—When a claim is made to goods held under a writ of execution by a person not party to the suit, the Court may decide the claim, upon application by the bailiff.

Examination of Judgment Debtors.—On the application of a judgment creditor, the Court may order the judgment debtor to be orally examined as to any debts due to him.

Criminal and Quasi-Criminal Appeals.—Appeal from Courts of Petty Sessions to Quarter Sessions is a remedy for bringing the Orders and Convictions of Justices under review at Quarter Sessions. The Court decides questions of fact as well as of law. The right of appeal exists in all cases of convictions or orders by Magistrates excepting orders made under the Seamen's Act, and in cases of adjudication to imprisonment for failure to comply with an order for payment of money, and for finding sureties, &c.

Special Cases from Courts of Petty Sessions must be brought, in the first instance, before the Judge sitting in Public Chambers, who is vested with the authority and jurisdiction of the Supreme Court and who may refer such cases to the Full Court. Land Appeal Cases and cases under Local Government Act, 1906, are set down for argument before the Full Court only. Special Cases from Wardens' Courts are brought, in the first instance, before the Judge sitting in Public Chambers, unless both parties consent to place their case before the Full Court. The Judge may refer any such case to the Full Court.

Street-trading Licenses.—The Neglected Children and Juvenile Offenders Act, 1905, which came into force during October, 1905, provides for the licensing of children engaged in street-trading. Badges are worn during the time of such trading. Only boys between 12 and 16 years may be licensed; the hours of trading are from 7 a.m. to 7 p.m. for boys under 14 years, and from 6 a.m. to 10 p.m. for boys over 14 years. Girls under 16 years of age are prohibited from trading. Boys of school age may not trade within school hours. Playing, singing, or performing for profit are permitted only in the case of boys over 14 years of age.

Theatre Licenses.—The Children's Protection Act, 1902, prevents children from taking part in public exhibitions or performances whereby the lives or limbs of such children are endangered. Where, however, it is shown that proper provision has been made for the health and kind treatment of children to be employed at premises licensed for public entertainments, children over 7 years of age may be granted licenses under restrictions and conditions. These licenses may be rescinded at any time.

Amount of Consideration.—In many instances the amounts lent upon mortgage by banks are not stated but simply the words "valuable consideration" or "cash credit" inserted in the deeds. As this occurs frequently, when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the head of "mortgages" are incomplete. It follows, therefore, that the "Amount of Consideration" stated applies only to cases in which the specific amounts are stated in the deeds, whether the amounts be the sums actually advanced or not.

Assurance Fund.—To provide compensation to persons who, through error, may have been deprived of their properties, an Assurance Fund has been created by a contribution of one half-penny in the pound levied on the declared capital value of property brought under the Real Property Act. On 10th September, 1906, the amount at credit of the Assurance Fund under the Real Property Act, viz., £255,058 14s. 1d., was transferred to the Closer Settlement Fund established by the Public Works and Closer Settlement Funds Act of 1906.

Sums secured by Lien on Wool and by Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by a mortgage of the sheep, the amount is included under the head of mortgages only—thus in 1915 the gross amount lent on liens was £498,449; but from this has to be deducted the sum of £99,311 secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £399,138.

Mortgages on Wool and Crops discharged.—Liens on wool and on growing crops mature at the end of each season, and terminate without formal discharge. During 1915 there were 25 discharges of wool liens registered, representing £9,189.

No. 87.—Patents, Copyrights, Trade Marks, and Designs.

Patents.—The administration of the Patents Act of New South Wales was transferred to the Commonwealth of Australia on the 1st June, 1904. The (Commonwealth) "Patents Act, 1903," and the "Patents Act, 1906," are administered by a Commissioner of Patents. A Patent granted under the Commonwealth Act is afforded protection in all the States of the Commonwealth, and remains in force during a period of fourteen years. The Patents Act of 1909 applied the laws relating to patents for inventions to the territory of Papua, and the Patents, Trade Marks, and Designs Act of 1910 relates to the administration of those Acts.

Copyright.—The position of Registrar of Copyright is held by the Commissioner of Patents. Under the Copyright (Commonwealth) Act, 1905, all matters relating to Copyright are administered by the Commonwealth. The copyright in a book, the performing right in a dramatic or musical work, and the lecturing right in a lecture, continue for the term of the author's life and seven years, or for forty-two years, whichever may be the greater period.

Trade Marks.—The New South Wales State Trade Marks Office ceased to receive applications as from the 2nd July, 1906, when the Trade Marks (Commonwealth) Act, 1905, commenced and the administration of the Trade Marks Act of New South Wales was transferred to the Commonwealth. The Commissioner of Patents acts also as Registrar of Trade Marks.

Designs.—The "Designs Act, 1906," commenced from the 1st January, 1907. This Act defines the registration and duration of copyright in designs. The position of Registrar of Designs is held by the Commissioner of Patents.

The Inebriates Act.—The Inebriates Act, 1912, provides for the special control and treatment of inebriates. Where a person has been convicted of an offence of which drunkenness is a component; or of assaulting women, cruelty to children, attempted suicide, or wilful damage to property, and it appears that drunkenness was a contributing cause of such offence, a Stipendiary or Police Magistrate may order that such offender be placed for a period of twelve months in a State Institution established by the Governor for the treatment of inebriates. On the order of a Judge, or of the Master-in-Lunacy, such period may be extended for further periods not exceeding twelve months each. Where a person has, after 9th September, 1909, been discharged from a State institution, or released on license, or discharged on recognizances, and within twelve months thereafter has been convicted of an offence of which drunkenness is a component, and has subsequently and during the said twelve months been charged with any offence, as herein mentioned, the Court may order him to be placed in a State Institution for a period not exceeding three years. Inmates are employed in remunerative and useful occupations.

NOTE.—The value of prisoners' labour at the different Gaols in the State, as estimated by the Prisons Department during the year 1915, was £51,915.

Punishments inflicted on Prisoners for breaches of discipline.—During 1915, under 1·1 per cent. of the prisoners received punishment, and the offences were generally of a trivial character. There have been no floggings, ironings, or other severe forms of punishment, and the dark cells were abolished some years ago.

Gaol Libraries.—The Gaol Libraries contain 23,391 carefully-selected volumes for recreation and instruction of prisoners after working hours.

First Offenders.—Under the provisions of the Crimes Act of 1900, as regards any person who has not been convicted previously of an indictable offence in New South Wales or elsewhere (in so far as is known to the Court) and is convicted of a minor offence, and is sentenced upon such conviction to penal servitude or imprisonment, the Court may suspend the sentence upon the offender entering into a recognizance, with or without sureties, to be of good behaviour for the period of such sentence if for twelve months or over; or, if under twelve months, then to be of good behaviour for the full period of twelve months.

Children Released after Conviction.—The Neglected Children and Juvenile Offenders Act, 1905, provides that where a child is summarily convicted of an offence entailing imprisonment, the Court may release the child on probation upon such conditions as may seem befitting. For the number of cases in which this applied, see Children's Courts, Table 95.

PART XI.

LOCAL GOVERNMENT.

EXPLANATION.

The tables in this volume were compiled from returns supplied by the various local governing bodies.

The financial tables were summarised from statements prepared by the Councils according to the forms prescribed by the Regulations under the Local Government Act, 1906. These regulations provide that the accounts must be Income and Expenditure Accounts, kept by double entry, and that each "Fund" must have a separate banking account. Thus there is shown for each General, Special, Local, or Loan Fund, and for each Trading Fund, of each area concerned, a "Revenue Account" (or Profit and Loss Account) giving the total expenditure chargeable for the period (whether paid or unpaid) and the total income for the same period (whether received or outstanding). A balance-sheet is also shown for each Fund with appropriate liabilities and assets. Only "realisable" assets are allowed to be included; so that the whole of the roads, bridges, drains, and other constructive works, which are often taken to account as assets elsewhere, are here excluded.

General Fund.—The Local Government Act prescribes that there must be a general fund in each local governing area (municipality or shire), to which must be paid the proceeds of all general and additional general rates, and moneys received by way of grant, endowment, &c., from the Government, and other income not required by law to be carried to other funds. The expenditure from the fund must be on administration, health, roads, and other public services, with the exception that unless exemption has been granted by the Governor, the cost of nightsoil and garbage removal must not be paid out of the General Fund, but out of a Special Fund, and the cost of lighting streets and roads must also be defrayed from a Special Fund. When, however, the municipality is wholly within twenty miles of the Sydney Post Office, or when the whole area of the municipality is benefited by the expenditure on street lighting, the Council may, in its discretion, pay such cost out of the General Fund.

Special Fund.—A Special Fund must be kept for each special rate levied, and for each work or service carried on by the Council in respect of which the special rate has been made, and the fund must be applied only for the purposes of such work or service. A special rate is levied only for a special object and applies to the whole area.

Local Fund.—A Local Fund must be kept for each local rate levied, with similar restrictions to those in the case of special funds. A local rate is levied for a local purpose, and applies only to that portion of the area which is benefited, and the expenditure of the local fund is restricted to work within or for the sole benefit of, that portion of the area.

Loan Fund.—A separate loan fund must be kept in respect of each work or service on which a loan is owing. Except where a loan fund has its own revenue from rates, &c., the obligations attendant thereon, such as provision for the repayment of principal and interest, may be met by transfers from the General Fund or other appropriate fund. The object of the loan, as a rule, determines the source from which the Loan Fund obtains its necessary revenue. When the loans have been raised for general purposes transfers are made from the General Fund, and the profits of trading concerns provide for the disbursements of their corresponding loan funds. This refers more particularly to those Loan Funds which must be kept in respect of loans which were raised before the new Act came into operation.

The revenue of special and local funds may be used in a similar manner; for example—a Street Lighting Special Fund must provide the money to meet the ordinary cost of maintaining the street lighting for the year, as well as the obligations of the Street Lighting Loan Fund; and the same conditions apply to the Sewerage Local Fund and Sewerage Loan Fund, Water Supply Special Fund, Water Supply Loan Fund, and all other loan Funds.

The financial transactions of the City of Sydney are shown separately from the other municipalities of the State, as the City Council conducts its affairs under the Sydney Corporation Act, and not under the Local Government Act, which is of later date.

No. 3.—Municipalities—Valuations, 1912–1915.—Comparative Table.

NOTE.—In this table the *Unimproved Capital Value* of Land is the amount which the fee-simple estate in such land is worth under such reasonable conditions as a *bona-fide* seller would require, assuming the actual improvements had not been made.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

(*e*) NOTE.—The letter (*e*) after the name of a municipality indicates that the municipality in question has Loan Funds which derive revenue from rates. As the administrative expenses of Loan Funds are paid from the General Fund, the revenue from rates of the Loan Funds in the cases marked should be added the General Fund income whenever the proportion of Administrative expenses to Total Income is required.

* December, 1915. † No elections, 1914.

Municipal Elections.—Under the Local Government Act of 1906, elections in all municipalities, are held triennially. The first election under the Act was held on the 1st February, 1908.

In the City of Sydney elections are also held triennially, on the 1st December. The last election took place on 1st December, 1915.

The "Ratepayers'" Roll contains the names of owners of ratable property, of managers, &c., of public companies which own ratable property, and of lessees of ratable Crown Land. Only ratepayers have the privilege of voting at "polls" held under the Act.

The "Electors'" Roll contains the names of owners of ratable property, and of occupiers who have had a minimum of three months occupation of rateable property

NOTE.—These works were constructed under the Country Towns Water and Sewerage Act. The Municipal Council of Richmond administered the service till the 26th May, 1893, when it was temporarily transferred, pending legal powers, to the Metropolitan Board of Water Supply and Sewerage. The Board is much restricted in its management, as only premises owned by persons who have signed agreements to take the water can be rated. The accounts are kept separate from those of the Metropolitan Water Scheme. The rate is 1s. in the £.

* The reduction in revenue is due to the Hawkesbury Agricultural College having ceased to take the supply from the Town Scheme.

† Increase due to abnormally dry season, which caused sand to interfere with pumping. ‡ As adjusted by Auditor-General.

* This column indicates the holdings (for whatever purpose used) on which there was cultivation, however slight. † Since 1909 the figures have been compiled on a slightly different basis to that followed in previous years. The information now obtained is more extensive, and the figures represent the actual growers of fruit, even if there be only a few trees on the holding.

‡ Wine grapes were grown on 225 holdings, and Table grapes were grown on 1,163 holdings.

NOTE.—There were 9,532 holdings on which orchard fruit (citrus or other) was grown during 1915–16.

NOTE.—The total length of State-constructed barrier fencing is 1,332 miles, erected at a cost of £69,888. It is estimated that about 101,357¾ miles have been erected in addition by private enterprise, at an estimated cost of £6,034,681, and 572 miles by Pastures Boards at a cost of £25,361.

* Although the Rabbit Act of 1901 was repealed on 24th December, 1902, by the Pastures Protection Act, 1902, it continued in force until the date of the first election of Pastures Protection Boards in 1903. The expenditure since 1903 has consisted mainly of payments to the Railway Commissioners for the maintenance of rabbit-proof barrier fences.

* Particulars not available in 14 instances. † Includes 1 Bore at the Government Experiment Farm, Coonamble.

Private Bores.—These bores are situated on private holdings, and have been made at the sole cost of the owners.

Water Act, 1912.—The Water Act, 1912, consolidates the Acts relating to Water Rights, Water and Drainage, Drainage Promotion, and Artesian Wells. Part II of the Act vests in the Crown the right to the use, flow, and control of the water in all rivers and lakes which flow through or past, or are situate within, the land of two or more occupiers. It abolishes "riparian rights," and establishes a system of licenses for works of water conservation, irrigation, and drainage. Prior to the passing of the Act relating to Water Rights such works on creeks and rivers, constructed by private individuals, were liable to destruction by any person who considered their existence opposed to his interests. It is now illegal to interfere with any work for which a license has been granted. The security provided is stimulating the construction of irrigation works of a better class throughout the State, and up to the end of June, 1916, the total number of applications received in respect of new licenses, or for renewal of licenses, was 3,847.

Part III of the Act provides for the supply of water, either for irrigation, stock, or domestic purposes, and for drainage, the liabilities on which are repaid to the Crown with interest spread over a period of years, and the works are administered by Trustees appointed from among the beneficiaries under the Act. For the supply of water, trusts have been constituted in connection with (*a*) 61 artesian wells, (*b*) 5 schemes for the improvement of natural off-takes of effluent channels, for the purpose of diverting supplies from the main rivers, (*c*) in 3 instances for the construction of dams across stream channels, and (*d*) 2 pumping schemes from natural watercourses. The total area included within these trusts amounts to 4,785,230 acres. In addition, 33 trusts have been constituted for the purpose of draining lands and rendering them fit for pastoral and agricultural purposes, and the area dealt with up to the present amounts to 133,098 acres. The total length of drainage channels constructed is 118 miles 59 chains, the total cost being £114,980, or an average of about 17s. 3½d. per acre. The preparation of 7 additional proposals is in hand. These cover an area of 14,977 acres and involve the construction of 19 miles 74 chains of drainage channels, at an estimated cost of £13,072.

Artesian Wells Act.—12 bores have been sunk, watering an area of 324,947 acres.

Public Watering Places.—At 30th June, 1916, there were 730 Public Watering Places, consisting of 380 dams and tanks, 94 wells, and 20 bores within Shire Boundaries, and 170 dams, 12 wells, and 54 bores in the Western Division of the State.

At 30th June, 1917, there were 763 Public Watering Places, consisting of 402 dams, &c., 101 wells, and 24 bores within Shire Boundaries, and 171 dams, 15 wells, and 50 bores in the Western Division.

Irrigation Settlements.—For some years Irrigation Settlements have been in operation at Wentworth and Hay, and formerly they were under the administration of the Agricultural Department. These areas are now under the control of the Water Conservation and Irrigation Commission.

At Wentworth the area consists of about 10,600 acres. Of this area, 2,165 acres are at present held under leases by sixty-seven settlers. Irrigation leases comprise 1,344 acres, and non-irrigable leases 821 acres. Approximately 1,200 acres are under cultivation, the greater part being devoted to fruit trees, including oranges, peaches, nectarines, pears, sultanas, and currants. The pumping machinery consists of a suction gas plant supplying two engines of about 55 B.H.P. each, with an average combined capacity of about 4,600 gallons per minute. The length of the main channels is 4 miles 24 chains, and of subsidiary channels 4 miles 31 chains; in all, 8 miles 55 chains. The Wentworth Irrigation Act provides for leases being issued for periods not exceeding thirty years. Rentals range from 1s. to 10s. per acre per annum; at present the minimum water rate is 10s. per acre per annum, and the maximum 20s. per acre per annum. Under the existing by-laws each lessee is entitled to receive a quantity of water equivalent to a depth of 30 inches per annum, with a limitation that not more than 4 inches shall be supplied in any one month.

The Hay Irrigation Area at present consists of about 3,840 acres. Of this, 2,973 acres are held under leases by 78 settlers. Irrigation leases contain 993 acres, and non-irrigable leases 1,980 acres. The Hay Irrigation Act provides that leases may be issued for periods not exceeding 99 years. The rentals range from 5s. to 10s. per acre per annum. The present water rate is £1 per acre per annum. Under the existing by-laws each lessee is entitled to receive a quantity of water equivalent to a depth of 24 inches per annum with the limitation of not more than eight waterings in the season. Dairying is the principal occupation of settlers. Paspalum, rye, amber cane, and barley do remarkably well if a little care is taken in the preparation of the land. The Area not only supplies the town of Hay with fresh milk, but produces, in almost all seasons, sufficient cream to keep the Hay Co-operative Butter Factory going throughout the year. The cultivation of fruit has not been extensively taken up, owing probably to the distance from market, but sufficient is grown to meet local requirements. The pumping machinery is very similar to that employed at Wentworth, the capacity of the pumps being 4,000 gallons per minute.

The Murrumbidgee irrigation scheme provides for the storage of sufficient water at Burrinjuck Dam to irrigate eventually 250,000 acres. The first subdivision was made in July, 1912, and at the close of June, 1916, there were in occupation on the Yanco subdivision 654 farms, aggregating 29,518 acres, and on the Mirrool subdivision 208 farms, comprising 9,377 acres. The lands are subdivided into intensive and mixed farming blocks ranging from 10 acres to 264 acres according to location and the nature of the soil. For water the annual charge is 5s. per "acre-foot," *i.e.*, sufficient water to cover 1 acre to the depth of 12 inches, but the charge is reduced by half for the first year, and is then increased yearly by 6d. per "acre-foot" to the full charge.

‡ The Sulphide Corporation, the only company smelting silver-lead ores in this State during these years on any scale, exported all its bullion as silver-lead, the refining being done abroad; the product is, therefore, classed under heading "Silver-lead," *vide* preceding Table.

§ Contents of bullion, by average assay, produced *within this State*.

Note.—The value of machinery and plants in operation at the mines is therefore, approximately, £6,088,000. This sum does not include the value of plants at the various smelting works, and that used for conveying products from the mines to railway stations, &c.

No. 100.—Prospecting Votes—Comparative Table.

Prospecting Vote.—The sum of £7,000 was voted for prospecting for gold in 1878, and in subsequent years, at irregular intervals, further small sums were voted and expended. In accordance with a resolution of Parliament, an amount has been voted each year since 1887, during which year it was confined to searching for gold. In the succeeding year the conditions were amended so as to embrace all minerals.

* Information not available. † Prior to 1894 the areas of sown grasses on alienated and Crown lands were not distinguished. Possibly in the earlier years some areas of Crown lands were under sown grasses, but the acreage thus cultivated would be comparatively small.

* This total of 118,011,728 acres is that obtained from the returns of occupiers of land. According to the Lands Department, the total area of Crown Lands leased (excluding mining leases and permissive occupancies) on 30th June, 1916, was less than this area by 1,382,000 acres. A considerable allowance must be made on account of leases cancelled after the returns had been collected. † Area in respect of which leases under the Western Lands Act of 1901 have not been converted. ‡ This part County in the Western Land Division.

NOTE.—Large holdings extending into more than one county are returned in the county where the homestead is situated.

* Prior to 1909 one wine distillery is included; in 1909 and after two are included.

NOTE.—In addition to the quantity of white spirit shown above as distilled from wine, 6,441 gallons were distilled by vignerons during 1915-16. Altogether during that year, 113,894 gallons of wine were distilled by vignerons and at distilleries to produce 18,148 gallons of white spirit.

The greater part of the white spirit distilled from molasses is rectified or methylated. Of the remainder, part is used for making rum, and part for fortifying vinegar, perfumes, &c.

Almost all the white spirit distilled from wine is used for fortifying other wine. A small quantity is used for making brandy.

During 1915-16 the following quantities of spirits were manufactured:—Brandy, 3,165 gallons; rum, 98,990 gallons; rectified spirits, 790,613 gallons; methylated spirits, 696,592 gallons.

No. 54.—Average Weekly Wages, according to Occupation, 1915.

(PERSONS AGED 21 YEARS AND OVER.)

The following Statistics in Tables 54, 55, and 57 to 60 are obtained from Returns collected under the Factories and Shops Act of 1912.

The following places are Factories within the meaning of the Factories and Shops Act:—

1. Any place (including a laundry, dye-works and bake-house) in which four or more persons are engaged directly or indirectly in working at any handicraft, or in preparing or manufacturing articles for trade or sale. This does not, however, include any building or place in which the persons working are all members of one family.
2. Any place (irrespective of the number of persons employed, or of the fact that they are all members of the same family) in which steam or other mechanical power or appliance is used—
   (*a*) In manufacturing goods, or
   (*b*) In packing goods for transit.
3. Any place in which two or more Chinese are so engaged.

All Government workshops, including the Railway workshops, Government Dockyard, State Clothing Factory, State Brick Works, and the Government Printing Office, are excluded from the returns.
